The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
1036 Longworth HOB  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Intersection Improvement at Medlock Bridge Road and McGinnis Ferry Road project in Fiscal Year 2026. The entity to receive funding for this project is the City of Johns Creek, located at 11360 Lakefield Drive, Johns Creek, Georgia, 30097.

The funding would be used for improvements to a highly congested intersection, including sidewalk and trail construction, wall construction, and erosion control. The project is an appropriate use of taxpayer funds because it will alleviate congestion at an intersection with over 80,000 vehicles passing through daily. The congestion and delays at the intersection affects regional mobility, emergency response, and daily commutes in the metro Atlanta area. This improvement will benefit thousands of residents and commuters who rely on this corridor to access jobs, schools, healthcare, and commercial areas. The intersection serves as a vital access point to key community assets including City Hall, public safety offices, a hospital with a 30-bed emergency department, and major retail centers. By addressing current and future capacity needs, this project directly supports the quality of life, economic development and transportation efficiency of the region.

The project has a federal nexus because the funding provided is for purposes described in 42 USC 5305(a)(2).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Rich McCormick, MD, MBA  
Member of Congress
